

COST RECOVERY FEE

Effective September 1, 2025, the cost of e-filing will increase from \$6.45 to \$10.00 per envelope.

Government Code §68150(l) and California Rule of Court 2.506 permit the court to impose a cost recovery fee to offset the expense of providing electronic filing. The court has undertaken substantial investments in technological equipment and infrastructure to provide e-filing, implement the Odyssey Case Management System and expand memory capabilities as the database of case records continues to grow. To offset a portion of those expenses the court is increasing the electronic filing fee.
